RE: Decision to decline participation in 1:1
Date: September 10, 2015

On behalf of (*Print Student's Name*) _____ in grade _____, we would like to thank the district for providing an opportunity for our child to utilize a school-owned laptop to enhance his/her educational experience. We are pleased that this district has arranged to make this equipment available for high school students at school and home.

After much consideration, we have decided to decline this offer for the 2015-16 school year. We understand that if something changes, we may reconsider participation in the program during next school year, if there are units available.

Thank you again. We wish you much success with this endeavor.

Sincerely,

Parent Signature: _____ Date: _____
