

Logging into Google Enterprise and Canvas

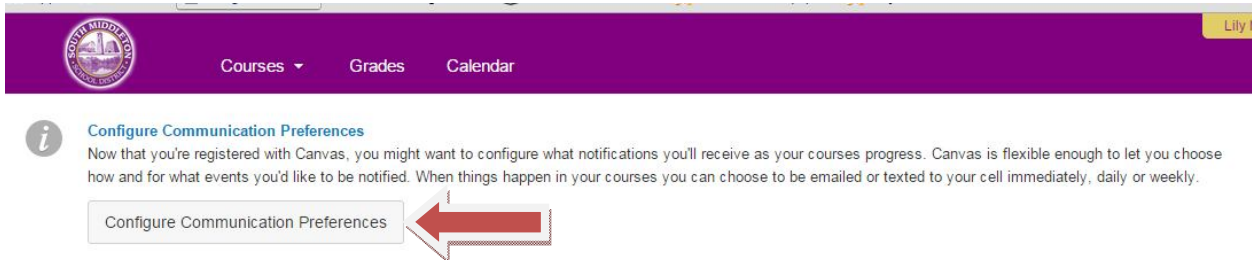

Student Google Accounts: Username is their Windows login followed by @bubblers.us (Example: 19DoeJ@bubblers.us). Their initial password is "password".

Once their Canvas account is created, they will have an email in their bubblers.us mailbox from Instructure Canvas called "Finish Registration". When they open this email, there will be a link "Click here to finish the registration process".

This will bring the student into the Canvas account at which point they can change their password and set up their notification preferences.

Have students go to Settings in the upper right hand corner of screen and then link their Google Drive to their Canvas account. "Authorize Google Drive Access" and then "Accept". This will allow them to easily upload documents from Google Drive into Canvas for submission.
